

# NASA ASTROBIOLOGY INSTITUTE ANNUAL REPORT YEAR 6

[July 2003 - June 2004]

Annual Reports :: Year 6 :: University of Colorado, Boulder

## Project Report: Origins of planetary systems

Bally, J. (2004). Dynamical and radiation processes in star and planet formation. *Baltic Astronomy*, 13: 357–364.

Bally, J. & Reipurth, B. (2003). Irradiated jets and outflows in the Pelican Nebula. *Astronomical Journal*, 126: 893–901.

Bennett, D.P., Bally, J., Bond, I., Cheng, E., Cook, K., Deming, D., Gilliland, R., Greenhouse, M., Gould, A., Kimble, R.. & 12 coauthors (2004). The microlensing planet finder [Abstract]. American Astronomical Society Meeting, 204: #1106.

Kretke, K.A. & Bally, J. (2003). Constraining disk survival times using the statistical properties of Proplyds in the Orion Nebula [Abstract]. Bulletin of the American Astronomical Society, 203: 1308.

McGroarty, F., Ray, T.P. & Bally, J. (2004). Parsec-scale Herbig-Haro outflows from intermediate mass stars. *Astronomy & Astrophysics*, 415: 189–201.

Pavlov, A.A., Toon, O.B., Pavlov, A.K., Bally, J. & Pollard, D. (2003). Passing through a giant molecular cloud – Snowball glaciations produced by interstellar dust [Abstract]. 35th Division of Planetary Sciences Meeting, Monterey, CA. Bulletin of the American Astronomical Society, 35: 3816.

Shuping, R.Y., Bally, J., Morris, M. & Throop, H. (2003). Evidence for grain growth in the protostellar disks of Orion. *Astrophysical Journal*, 587: 109–112.

Shuping, R.Y., Patience, J., Bally, J., Morris, M., Larkin, J.E. & Macintosh, B.A. (2003). Keck near-infrared observations of the Orion Proplyds: Initial results [Abstract]. Proceedings of the SPIE (International Society for Optical Engineering), 4834: 364.

Smith, N., Bally, J., & Morse, J.A. (2003). Numerous proplyd candidates in the harsh environment of the Carina Nebula. *Astrophysical Journal*, 587: 105–108.

Walawender, J., Bally, J., Reipurth, B. & Aspin, C. (2004). Deep imaging surveys of star-forming clouds. II: A new giant Herbig–Haro flow in L1451. *Astrophysical Journal*, 127: 2809–2816.
